Introduction To Probability 2nd Edition Problem

SolutionsSolution To Problem 1.19. Let  $A$  be the event

that Alice does not find her paper in drawer  $I$ . Since

the paper is in drawer  $I$  with probability  $p_I$ , and her

search is successful with probability  $d_I$ , the

multiplication rule yields  $P(A^c) = p_I d_I$ , so that  $P(A) =$

$1 - p_I d_I$ . Let  $B$  be the event that the paper is in drawer

$J$ . 2th, 2024
